

# Pro Tec

## Luxury printable media

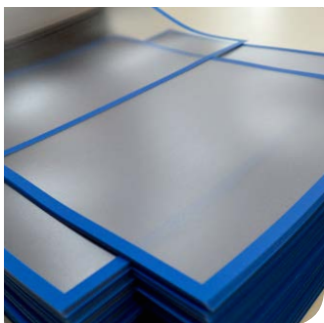

Take marketing to a whole new level and start creating gorgeous floor graphics with our Pro Tec. It provides the ultimate in image protection, capable of handling heavy foot and vehicle traffic. What makes our Pro Tec better than traditional floor graphic systems is its superior durability and versatility. This means that once printed, not only you can place it anywhere at any time, but the graphics will retain their sharp image and quality regardless of the traffic or pressure.

Our ProTec is an incredibly cost-effective solution because of how easy it is to install - no adhesive or skilled labour needed, just a moment of your time and you will have a beautiful graphic display that's built to last.

### USP

- Our Pro Tec requires effortless installation and minimal effort to install it properly
- Because of its ingenious design our Pro Tec is resistant to slip & tear as well as water and fluids
- It offers superior durability and more versatility than traditional floor graphics systems
- Our Pro Tec is a cost effective solution, guaranteed to save you labour, time and money

### Applications

- Retail
- Exhibitions
- Showrooms
- Entertainment centers

### Thickness variation

0.3 - 2.0 mm

### Width variation

1200 - 2000 mm

### Length variation

15 - 40 m

# Pro Tec

## Product Description

Take marketing to a whole new level and start creating gorgeous floor graphics with our Pro Tec. It provides the ultimate in image protection, capable of handling heavy foot and vehicle traffic. What makes our Pro Tec better than traditional floor graphic systems is its superior durability and versatility. This means that once printed, not only you can place it anywhere at any time, but the graphics will retain their sharp image and quality regardless of the traffic or pressure. Our Pro Tec is an incredibly cost-effective solution because of how easy it is to install - no adhesive or skilled labour needed, just a moment of your time and you will have a beautiful graphic display that's built to last.

## Features

- Slip & Tear Resistant
- Water & Fluid Resistant
- Second surface protected print
- Wide range of application areas

## Applications

- Retail
- Exhibitions
- Showrooms
- Entertainment centers

## Advantages

- Ideal for areas with high traffic
- Cost-effective solution
- Effortless installation and adjustment
- Printable on a wide range of printers and ink delivery systems

## Product Specifications

Pro Grip	Thickness (mm)	Width (mm)	Length (m)	Ink Compatibility*
Pro Tec 2	0.3	1220	20/40	UV
Pro Tec 4 - 1	1	1220/2000	15/20/40	UV
Pro Tec 4 - 2	2	1220/2000	15/20/40	UV

Ink Compatibility\*  
**UV** = UV curable

## Storage Conditions

- Store at temperature conditions of 10 - 25°C (50 - 77°F) and 50% relative humidity.
- We recommend that you always keep this product in its original packaging.

## Installation & Handling

- For best results let material acclimate to room temperature prior to printing.
- Cooler temperature can slow the recovery rate for the material to lay flat which results in a "wavy" material lay down.
- Our Pro Tec should be applied onto a clean surface.
- Material temperature range for application should be kept between 10-70°.

## Cautions

- Prolonged exposure to water may cause temporary material clouding.
- Excessive heat from routing may cause material to produce an undesirable edge. Routing is not recommended.
